Stay Safe Online – Security Checklist for College Students (India)

-Use strong and unique passwords
Create complex passwords (minimum 8–12 characters with letters, numbers, and symbols) and avoid reusing them across platforms.

Enable Two-Factor Authentication (2FA)
Activate 2FA on email, social media, academic portals, and financial apps to enhance account security.

-Exercise caution with links and attachments
Do not click on unsolicited links or download attachments from unknown or unverified sources.

- Protect confidential information
Never share passwords, OTPs, CVV, or personal identification details through calls, messages, or emails.

- UPI/Financial Safety: Keep your UPI PIN strictly confidential
Do not disclose your UPI PIN under any circumstances, even if the request appears to be from a bank or official source.

- UPI/Financial Safety: Verify transaction requests carefully
Review all UPI "collect" requests before approval; remember that receiving money does not require entering your PIN.

- Avoid public Wi-Fi for sensitive transactions
Refrain from accessing banking or making online payments over unsecured or public networks.

- Install applications only from trusted platforms
Download apps exclusively from official stores (e.g., Google Play Store) to minimize malware risks.

- Maintain updated software and security patches
Regularly update your device's operating system, apps, and antivirus software to address vulnerabilities.

- Ensure secure logouts on shared systems
Always log out from accounts when using shared or public computers to prevent unauthorized access.

Cybercrime Reporting Channels (India):

- **National Cyber Crime Portal:** https://cybercrime.gov.in
- **Helpline Number:** 1930
